THE NEW WAY YOUR PRACTICE STAYS REACHABLE.

Praxis AI

Your smart AI medical receptionist.

Praxis AI answers calls, understands your patients' needs, and takes the load off your practice team – around the clock.

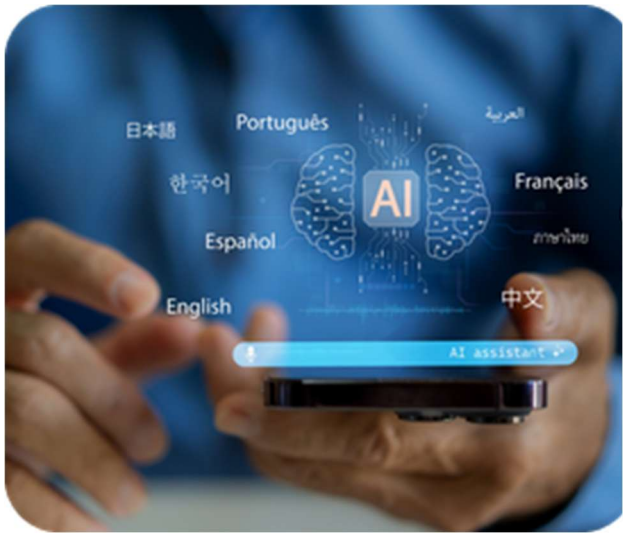
The AI holds natural conversations, captures the relevant information, and prepares it in a clear, structured way for your team.

Praxis AI handles automatable tasks independently – reliably, efficiently, and without any extra work for your staff.

Every conversation is documented in a structured way and summarized concisely, so your practice team instantly knows what it's about and what to do next.

The result: fewer interruptions, less administrative work, and more time for what really matters – your patients.

24 hours a day. 7 days a week. Your practice stays reachable.



24/7 reachable

50+ languages

100% GDPR-compliant

FROM PATIENT CALL TO A RELIEVED PRACTICE

1. **CALL** comes in
2. **DIALOGUE** is understood
3. **INFORMATION** is processed and translated
4. **PATIENT RECORD** Data is transferred
5. **PRACTICE TEAM** is relieved

Everything the AI handles for you

Individually configurable. Expandable without programming.

- ✓ **Appointments** – Schedule, change, confirm & remind
- ✓ **Concerns** – Structured symptom inquiry
- ✓ **Referrals** – Specialist referral in seconds
- ✓ **Insurance** – Inquiries & pre-authorization
- ✓ **Your Use Cases** – Add your own call reasons
- ✓ **SMS** – Conversation with patients
- ✓ **Prescriptions** – Coordinate prescription & pickup
- ✓ **Cancellations** – Sick leave notices and cancellations
- ✓ **Integration** – Seamlessly into existing workflows

Your Benefits

More time. More connection.

- ✓ **Availability** – reachable even outside office hours
- ✓ **No Missed Calls** – no more missed calls
- ✓ **Transcription** – precise transcription of every call
- ✓ **Natural Voice** – natural, human-like conversation
- ✓ **Multilingual** – communication in over 50 languages
- ✓ **Preparation** – well-prepared doctor consultations
- ✓ **Automation** – automated, asynchronous processing
- ✓ **Satisfaction** – noticeably higher patient satisfaction
- ✓ **Data Protection** – GDPR-compliant and secure
- ✓ **Relief** – less administration – more time for medicine
- ✓ **Reporting** – central web dashboard with reporting
- ✓ **Hosting** – cloud hosting in Europe – European provider
