THE NEW WAY TO REACH YOUR PATIENTS.

Praxis AI

Your smart AI outbound assistant.

Praxis AI proactively contacts your patients by phone or SMS – automated, reliable, and with natural conversation.

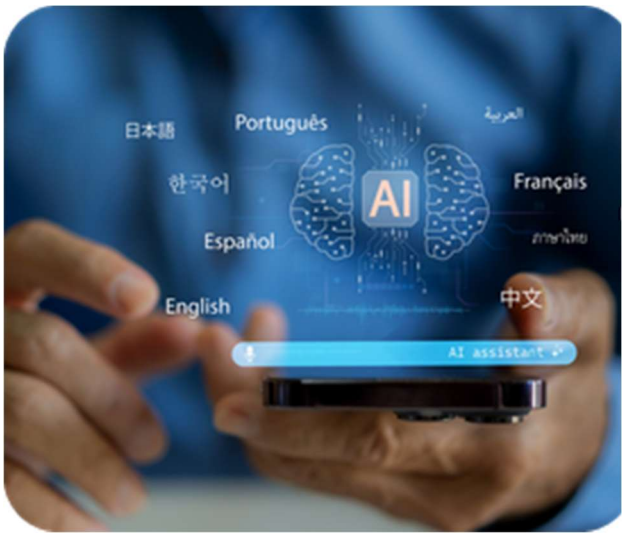
Scalable and versatile: over 1,000 contacts in just 5 minutes, with individually configurable campaigns for almost any use case.

Diverse applications: appointment reminders, follow-up campaigns, or sending documents via download link – directly to your patients.

Easy to administer: campaigns and conversation logic can be configured without any programming knowledge, via an intuitive no-code web interface.

Every conversation is automatically transcribed and structured – seamlessly integrated into your electronic patient record.

No one gives you greater patient reach than we do.



Actively guide patients

Automate processes efficiently

Work securely, fully integrated

FROM CAMPAIGN TO A RELIEVED PRACTICE TEAM

1. **CAMPAIGN** is launched
2. **CONTACT** by call & SMS
3. **DIALOGUE** is conducted naturally
4. **DOCUMENTATION** is created automatically
5. **PRACTICE TEAM** is informed

Everything the AI handles for you

Individually configurable. Expandable without programming.

- ✓ **Appointments** – Reminders for patients
- ✓ **Aftercare** – after hospital discharge
- ✓ **Conditions** – ongoing support for chronic conditions
- ✓ **Studies** – ongoing check-ins for clinical trials
- ✓ **Examinations** – reminders for study appointments
- ✓ **Training** – coordination & certification
- ✓ **Prescriptions** – Reminders for renewals
- ✓ **Post-Op** – follow-up care after procedures
- ✓ **Vaccinations** – proactive outreach
- ✓ **Side Effects** – monitoring & reporting
- ✓ **Recalls** – notifications on product recalls

Your Benefits

More reach. Less effort.

- ✓ **Reach** – reach over 1,000 patients in 5 minutes
- ✓ **Outreach** – automated via phone & SMS
