LESS DOCUMENTATION. MORE TIME FOR PATIENTS.

Praxis AI

Your medical AI documentation assistant.

The intelligent AI documentation assistant captures medically relevant content from doctor-patient conversations and automatically generates precise transcripts and documentation.

Multilingual and dialect-capable, it also supports the translation and transcription of different languages and language variants.

The documentation can be individually configured via a web-based backend.

Thanks to API integration, completed documentation can be transferred automatically and directly into the patient record.

The result: less writing, less administrative work, and more time for what really matters – your patients.

Less documentation effort. More time for patients.

Intelligent Conversation Documentation

Seamless Practice Integration

Less Documentation Workload

FROM DOCTOR CONSULTATION TO FINISHED DOCUMENTATION

1. **CONSULTATION** takes place
2. **SPEECH** is recognized & transcribed
3. **CONTENT** is structured and processed
4. **DOCUMENTATION** is created automatically
5. **PATIENT RECORD** Data is transferred

Diverse Features

Precise documentation. Automated and individually configurable.

- ✓ **Capture** – Precise capture of the complete doctor-patient conversation
- ✓ **Integration** – Seamlessly into your existing patient information system
- ✓ **Recordings** – Unlimited number of recordings
- ✓ **Output Format** – Flexibly customizable output of recordings
- ✓ **Multilingualism** – Translation and transcription of different language variants
- ✓ **Transcription** – Automatic, highly precise speech recognition and transcription
- ✓ **Multi-User** – Usable by your entire practice team
- ✓ **Summaries** – Automated monthly summaries
- ✓ **ICD-10 Coding** – Automatic coding according to ICD-10

Your Benefits

Less effort. More time for patients.

- ✓ **Time Savings** – Saves up to 3 hours a day – less work outside office hours
- ✓ **Real-Time** – Real-time patient findings with instant transcription
- ✓ **Consistency** – Greater consistency & quick review of your notes
- ✓ **Flexibility** – Fully adaptable to your individual practice workflow
- ✓ **Mobile & Web** – Available as a mobile & web app
- ✓ **Multilingual** – Supports more than 50 languages
- ✓ **Data Protection** – 100% GDPR-compliant and secure
